## PREVENT FOREST FIRES

FOREST FIRES cause a loss not only to the owner of the timber destroyed, but also to *every member of the community*.

YOU SHARE THIS LOSS.

The State Conservation Commission is doing its best to prevent forest fires: The Delaware and Hudson Company is taking steps to prevent the escape of sparks and coals from its locomotives, but IT TAKES THE HELP OF EVERY PERSON WHO GOES INTO THE FOREST FOR BUSINESS OR PLEASURE TO MAKE THESE MEASURES EFFECTIVE.

EXERCISE THE SAME CARE WITH FIRE IN THE FOREST THAT YOU WOULD TAKE WITHOUT QUESTION IN YOUR OWN HOME OR IN THE CITY. THE LAW REQUIRES IT.

Write to the Conservation Commission, Albany, N. Y., for the bulletin on "Forest Fires," which will tell you about the danger of fires and how to prevent them. Send for a copy of the fire laws.

## PREVENT FOREST FIRES

FOREST FIRES cause a loss not only to the owner of the timber destroyed, but also to *every member of the community*.

YOU SHARE THIS LOSS.

The State Conservation Commission is doing its best to prevent forest fires: The Delaware and Hudson Company is taking steps to prevent the escape of sparks and coals from its locomotives, but **IT TAKES THE HELP OF EVERY PERSON WHO GOES INTO THE FOREST FOR BUSINESS OR PLEASURE TO MAKE THESE MEASURES EFFECTIVE.**

EXERCISE THE SAME CARE WITH FIRE IN THE FOREST THAT YOU WOULD TAKE WITHOUT QUESTION IN YOUR OWN HOME OR IN THE CITY. THE LAW REQUIRES IT.

Write to the Conservation Commission, Albany, N. Y., for the bulletin on "Forest Fires," which will tell you about the danger of fires and how to prevent them. Send for a copy of the fire laws.

# ANYWHERE...

You have noted the Railway Express Agency signs on the stations? Almost every station has one, for wherever the principal railway lines go, Railway Express goes too. Being nation-wide, with 23,000 offices spotting the continent, we can deliver shipments to practically anyone anywhere in America, at passenger train speed. Railway Express rates are low, and include pick-up and delivery by motor truck in all cities and principal towns, without extra charge. Two receipts, one to the shipper, another to Railway Express on delivery, make sureness doubly sure. For service and information, phone your nearest Railway Express office.

OWNED AND  
OPERATED BY

THE STATE OF  
NEW YORK

The territory served by The Delaware and Hudson Railroad Corporation offers numerous advantages for the establishment of industry.

Natural resources of the territory contribute coal, iron ore, granite, graphite, garnet, feldspar, marble, sandstone, limestone, slate, sand and gravel, clay, and other materials, each of which has been developed to lend itself to a variety of uses.

Forest resources provide huge quantities of Spruce, Hemlock, and White Pine among the soft woods, and Beech, Birch, Maple and White and Red Oak among the hard woods.

Agricultural conditions are exceptionally favorable and dairying, orcharding, the raising of extensive crops of hay, potatoes, corn, and general truck gardening offer profitable pursuits.

The Port of Albany, within a 300 mile radius of which is located one-third of the population of the United States and to which 85 per cent of the ships of the world may navigate, is located midway between the extremities of the system, materially enhancing market possibilities.

Our Development Department is in a position to furnish detailed information concerning the communities served. Phases of economical plant location, such as source of raw material, markets for finished products, and available warehouse space, will be furnished upon request.

GEO. E. BATES,

Assistant to Vice-President  
for Industrial Development,

The Delaware and Hudson Railroad Corporation,

# TRAVELERS CHEQUES

- It is now possible, before you start on your journey, to change the cash you must carry into American Express Travelers Cheques at the larger ticket offices when you secure your ticket. This precaution is recommended as the use of these Cheques protects you against loss should your funds be mislaid or stolen.

# ANYWHERE...

You have noted the Railway Express Agency signs on the stations? Almost every station has one, for wherever the principal railway lines go, Railway Express goes too. Being national-wide, with 23,000 offices spotting the continent, we can deliver shipments to practically anyone anywhere in America, at passenger train speed. Railway Express rates are low, and include pick-up and delivery by motor truck in all cities and principal towns, without extra charge. Two receipts, one to the shipper, another to Railway Express on delivery, make sureness doubly sure. For service and information, phone your nearest Railway Express office.

OWNED AND  
OPERATED BY

THE STATE OF  
NEW YORK

The territory served by The Delaware and Hudson Railroad Corporation offers numerous advantages for the establishment of industry.

Natural resources of the territory contribute coal, iron ore, granite, graphite, garnet, feldspar, marble, sandstone, limestone, slate, sand and gravel, clay, and other materials, each of which has been developed to lend itself to a variety of uses.

Forest resources provide huge quantities of Spruce, Hemlock, and White Pine among the soft woods, and Beech, Birch, Maple and White and Red Oak among the hard woods.

Agricultural conditions are exceptionally favorable and dairying, orcharding, the raising of extensive crops of hay, potatoes, corn, and general truck gardening offer profitable pursuits.

The Port of Albany, within a 300 mile radius of which is located one-third of the population of the United States and to which 85 per cent of the ships of the world may navigate, is located midway between the extremities of the system, materially enhancing market possibilities.

Our Development Department is in a position to furnish detailed information concerning the communities served. Phases of economical plant location, such as source of raw material, markets for finished products, and available warehouse space, will be furnished upon request.

GEO. E. BATES,

Assistant to Vice-President  
for Industrial Development,

## AUSABLE CHASM

This great natural wonder ranks among nature's masterpieces. The Ausable River, in its passage from the Adirondacks to Lake Champlain has cut this vast fissure through the granite mountains. The walls of this chasm are an interesting example of river carving and a fascinating study for the tourist. Ausable Chasm is but three miles from Port Kent station on The Delaware and Hudson Railroad and is easily accessible by auto or taxi.

### CUSTOMS INFORMATION FOR RESIDENTS OF THE UNITED STATES RETURNING FROM CANADA

Residents of United States may take into Canada their wearing apparel and other personal effects and upon return to United States are entitled to have the same admitted free of duty. Residents of United States upon return must declare all articles acquired abroad, in their baggage or on their person, whether by purchase, by gift, or otherwise, and whether dutiable or free of duty.

Each returning resident of the United States is entitled to an exemption from duty on articles up to a total of One Hundred Dollars (\$100.00) in value acquired outside the United States under the following conditions, if declared when the resident arrives at the United States port of entry:

1. Provided they have been outside the United States over forty-eight hours.
2. Provided they have had no previous exemption for the past thirty days.
3. Provided the articles are not intended for sale, or as an order for others, or prohibited by law.
4. Provided they are acquired as an incident of the foreign journey.
5. Foodstuffs, cigarettes, tobacco, 100 cigars, and not over one wine gallon of distilled spirits, wines or malt liquors (provided the quantity is not prohibited by State law) may be included in this exemption.
6. When a husband and wife, or a parent or parents and minor or financially dependent children, travel together, the articles included within the exemption may be grouped and allowance made without regard to which member is the owner; PROVIDED, that the group exemption shall not include servants.

7. Articles intended for future delivery must be declared in writing at the port of entry at the time of the resident's return to the United States.

Special provision is made in the case of sealskin garments. To save yourself embarrassment, inquire about the regulations of U. S. Customs Inspector at port of entry before you leave the United States, or if you are a traveler from Canada, before you enter the United States.

### CUSTOMS INFORMATION FOR RESIDENTS OF CANADA RETURNING FROM THE UNITED STATES

Goods valued at not more than one hundred dollars included in the baggage accompanying residents of Canada returning from abroad after an absence from Canada of not less than 48 hours and acquired by them for personal or household use or as souvenirs or gifts, but not bought on commission or as an accommodation for other persons or for sale, under regulations prescribed by the Minister will be admitted free.

Provided that a resident of Canada shall not be entitled to the exemption herein granted within a period of four months from the date of the last exemption allowed, nor shall the exemption be allowed on alcoholic beverages in excess of one quart, or on tobacco in excess of fifty cigars, two hundred cigarettes and two pounds of manufactured tobacco.

The following regulations have been prescribed by the Minister:

- (a) All goods in respect of which exemption is claimed shall be declared in writing on Customs Declaration Form E. 24, in duplicate, unless the total value upon which exemption claimed does not exceed \$5.00.
- (b) The exemption granted shall be limited to goods actually accompanying a returning resident of Canada and brought in by him as baggage at the time exemption is claimed, and shall not be granted to any person under the age of fourteen years.
- (c) A person who has been allowed exemption of less than \$100 on a previous occasion shall not be entitled to add to the amount of a subsequent exemption the difference between the amount previously allowed and full exemption.
- (d) Goods belonging to one person cannot be included in the exemption claimed by another.
- (e) Returning residents must state in their declaration in Canadian currency the price actually paid for all goods purchased abroad in respect of which exemption is claimed, and must state a fair market value for all goods obtained abroad other than by purchase, such as gifts. The purchase price or value stated is not necessarily the value for duty, but must be declared in order to assist the appraising officer in arriving at the correct value for duty. To facilitate appraisal invoices or sales slips should be presented where possible.
- (f) If personal effects or goods taken abroad be advanced in value or improved in condition while abroad by reason of repairs or alterations further than that necessarily incidental to wear and use while abroad, the cost or value of such repairs or alterations is subject to duty. Such cost or value may, however, be included with the \$100 exemption.
- (g) In cases where goods for which exemption is claimed have a combined value of over \$100, exemption is to be applied, where practicable, to the goods subject to the highest rates of duty.
- (h) All dutiable goods obtained from abroad for which exemption cannot be allowed, must be entered at customs and duty paid in the ordinary course.
- (i) These regulations shall not be construed to be applicable to any goods the importation of which is otherwise prohibited.

Baggage may be examined at Toronto, London, Ottawa, Montreal and Quebec by American customs officials and checked through to destination in the United States, thus avoiding inconvenience of examination at port of entry on the frontier. Baggage from the United States destined to cities just named will be carried through Canada in bond to destination, avoiding examination at Canadian frontier.

## AUSABLE CHASM

This great natural wonder ranks among nature's masterpieces. The Ausable River, in its passage from the Adirondacks to Lake Champlain has cut this vast fissure through the granite mountains. The walls of this chasm are an interesting example of river carving and a fascinating study for the tourist. Ausable Chasm is but three miles from Port Kent station on The Delaware and Hudson Railroad and is easily accessible by auto or taxi.

### CUSTOMS INFORMATION FOR RESIDENTS OF THE UNITED STATES RETURNING FROM CANADA

Residents of United States may take into Canada their wearing apparel and other personal effects and upon return to United States are entitled to have the same admitted free of duty. Residents of United States upon return must declare all articles acquired abroad, in their baggage or on their person, whether by purchase, by gift, or otherwise, and whether dutiable or free of duty.

Each returning resident of the United States is entitled to an exemption from duty on articles up to a total of One Hundred Dollars (\$100.00) in value acquired outside the United States under the following conditions, if declared when the resident arrives at the United States port of entry:

1. Provided they have been outside the United States over forty-eight hours.
2. Provided they have had no previous exemption for the past thirty days.
3. Provided the articles are not intended for sale, or as an order for others, or prohibited by law.
4. Provided they are acquired as an incident of the foreign journey.
5. Foodstuffs, cigarettes, tobacco, 100 cigars, and not over one wine gallon of distilled spirits, wines or malt liquors (provided the quantity is not prohibited by State law) may be included in this exemption.
6. When a husband and wife, or a parent or parents and minor or financially dependent children, travel together, the articles included within the exemption may be grouped and allowance made without regard to which member is the owner; PROVIDED, that the group exemption shall not include servants.

7. Articles intended for future delivery must be declared in writing at the port of entry at the time of the resident's return to the United States.

Special provision is made in the case of sealskin garments. To save yourself embarrassment, inquire about the regulations of U. S. Customs Inspector at port of entry before you leave the United States, or if you are a traveler from Canada, before you enter the United States.

### CUSTOMS INFORMATION FOR RESIDENTS OF CANADA RETURNING FROM THE UNITED STATES

Goods valued at not more than one hundred dollars included in the baggage accompanying residents of Canada returning from abroad after an absence from Canada of not less than 48 hours and acquired by them for personal or household use or as souvenirs or gifts, but not bought on commission or as an accommodation for other persons or for sale, under regulations prescribed by the Minister will be admitted free.

Provided that a resident of Canada shall not be entitled to the exemption herein granted within a period of four months from the date of the last exemption allowed, nor shall the exemption be allowed on alcoholic beverages in excess of one quart, or on tobacco in excess of fifty cigars, two hundred cigarettes and two pounds of manufactured tobacco.

The following regulations have been prescribed by the Minister:

- (a) All goods in respect of which exemption is claimed shall be declared in writing on Customs Declaration Form E. 24, in duplicate, unless the total value upon which exemption claimed does not exceed \$5.00.
- (b) The exemption granted shall be limited to goods actually accompanying a returning resident of Canada and brought in by him as baggage at the time exemption is claimed, and shall not be granted to any person under the age of fourteen years.
- (c) A person who has been allowed exemption of less than \$100 on a previous occasion shall not be entitled to add to the amount of a subsequent exemption the difference between the amount previously allowed and full exemption.
- (d) Goods belonging to one person cannot be included in the exemption claimed by another.
- (e) Returning residents must state in their declaration in Canadian currency the price actually paid for all goods purchased abroad in respect of which exemption is claimed, and must state a fair market value for all goods obtained abroad other than by purchase, such as gifts. The purchase price or value stated is not necessarily the value for duty, but must be declared in order to assist the appraising officer in arriving at the correct value for duty. To facilitate appraisal invoices or sales slips should be presented where possible.
- (f) If personal effects or goods taken abroad be advanced in value or improved in condition while abroad by reason of repairs or alterations further than that necessarily incidental to wear and use while abroad, the cost or value of such repairs or alterations is subject to duty. Such cost or value may, however, be included with the \$100 exemption.
- (g) In cases where goods for which exemption is claimed have a combined value of over \$100, exemption is to be applied, where practicable, to the goods subject to the highest rates of duty.
- (h) All dutiable goods obtained from abroad for which exemption cannot be allowed, must be entered at customs and duty paid in the ordinary course.
- (i) These regulations shall not be construed to be applicable to any goods the importation of which is otherwise prohibited.

Baggage may be examined at Toronto, London, Ottawa, Montreal and Quebec by American customs officials and checked through to destination in the United States, thus avoiding inconvenience of examination at port of entry on the frontier. Baggage from the United States destined to cities just named will be carried through Canada in bond to destination, avoiding examination at Canadian frontier.

American tourists and visitors are cordially invited to enter Canada and do not require passports to enter the Dominion. Citizens of the United States still retain their pre-war freedom to enter and travel in Canada without new restrictions. In order to facilitate crossing the international boundary in each direction, citizens of the United States by naturalization should be prepared to present their naturalization certificates and citizens of other countries should be prepared to establish their legal admission to the United States either by record of admission or certificate of reentry.

#### CUSTOMS REGULATIONS

##### Travelers' Baggage

**General Provisions**—Wearing apparel, articles of personal adornment, toilet articles and similar personal effects of persons arriving in Canada may be passed free, without entry at Customs, as travelers' baggage, under the provisions of the Customs Tariff, but this provision shall include only such articles as actually accompany and are in the use of and as are necessary and appropriate for the wear and use of such persons for the immediate purpose of the journey and present comfort and convenience, and shall not be held to apply to merchandise or articles intended for other persons or for sale. Merchandise for sale, when brought into Canada as baggage is subject to duty and to entry at Customs in the same manner as goods imported by freight or express.

It is recommended, however, that they be in possession of such personal papers and other documents as may be helpful in establishing that they are American citizens. A birth certificate is the best form of evidence.

Citizens of Canada or British subjects domiciled in Canada may be admitted to the United States for not more than 29 days upon presentation of evidence of their citizenship, such as a Passport, Birth Certificate, Non Resident Border Crossing Identification Card. ## "We HEAT with ANTHRACITE"

... This is another familiar phrase ... a phrase which is on the lips of millions of American and Canadian fuel buyers with the arrival of each Fall and Winter. Again, why?

- 1st—because Anthracite is clean and smokeless.
- 2nd—because Anthracite is an economical fuel.
- 3rd—because Anthracite is dependable. The supply is adequate.
- 4th—because Anthracite is safe. It has never been known to explode.
- 5th—because Anthracite gives you the convenience of few firing periods—the comfort of steady, even heat.
- 6th—because it can be used in fully automatic equipment.

Have you investigated the outstanding advantages of automatic heat with Anthracite? If not, why not do so in the near future. Your local Anthracite dealer will be glad to give you full details.

### INFORMATION FOR PERSONS ENTERING CANADA FROM THE UNITED STATES Immigration Regulations

American tourists and visitors are cordially invited to Canada and do not require passports to enter the Dominion. Citizens of the United States still retain their pre-war freedom to enter and travel in Canada without new restrictions. In order to facilitate crossing the international boundary in the United States, citizens of the United States by naturalization should be prepared to present their naturalization certificates and citizens of other countries should be prepared to establish their legal admission to the United States either by record of admission or certificate of reentry.

### CUSTOMS REGULATIONS Travelers' Baggage

**General Provisions**—Wearing apparel, articles of personal adornment, toilet articles and similar personal effects of persons arriving in Canada may be passed free, without entry at Customs, as travelers' baggage, under the provisions of the Customs Tariff, but this provision shall include only such articles as actually accompany and are in the use of and as are necessary and appropriate for the wear and use of such persons for the immediate purpose of the journey and present comfort and convenience, and shall not be held to apply to merchandise or articles intended for other persons or for sale. Merchandise for sale, when brought into Canada as baggage is subject to duty and to entry at Customs in the same manner as goods imported by freight or express.

**Cigars and Cigarettes in personal baggage of non-residents**—Fifty cigars or less, two hundred cigarettes or less and two pounds of manufactured tobacco or less, in open packages, or in cartons, may be delivered free of duty.

Goods valued at not more than one hundred dollars provided the articles are not prohibited under Canadian Government Order in Council P.C. 4678, included in the baggage accompanying residents of Canada returning from abroad after an absence from Canada of not less than 48 hours and acquired by them for personal or household use or as souvenirs or gifts, but not bought on commission or as an accommodation for other persons or for sale, will be admitted free, including 200 cigarettes or less and 50 cigars or less, and two pounds of pipe tobacco or less. A birth certificate is the best form of evidence.

Citizens of Canada or British subjects domiciled in Canada may be admitted to the United States for not more than 29 days upon presentation of evidence of their citizenship, such as a Passport, Birth Certificate, Non Resident Border Crossing Identification Card. Articles belonging to one passenger cannot be included in the exemption of another, except that when members of a family residing in one household travel together on their return to the United States, the exemptions to which the several members

of the family are entitled may be grouped and allowed without regard to which member is the owner, provided that the grouped exemption shall not include that of any person who is not entitled to such an exemption, nor be allowed for the property of any such person.

## "We HEAT with ANTHRACITE"

... This is another familiar phrase ... a phrase which is on the lips of millions of American and Canadian fuel buyers with the arrival of each Fall and Winter. Again, why?

1st—because Anthracite is clean and smokeless.

2nd—because Anthracite is an economical fuel.

3rd—because Anthracite is dependable. The supply is adequate.

4th—because Anthracite is safe. It has never been known to explode.

5th—because Anthracite gives you the convenience of few firing periods—the comfort of steady, even heat.

6th—because it can be used in fully automatic equipment.

Have you investigated the outstanding advantages of automatic heat with Anthracite? If not, why not do so in the near future. Your local Anthracite dealer will be glad to give you full details.

INFORMATION FOR PERSONS ENTERING THE UNITED STATES  
FROM CANADA

## Immigration Regulations

United States citizens do not require passports when reentering the United States after a visit to Canada. It is recommended, however, that they be in possession of such personal papers or other documents as may be helpful in establishing that they are citizens of the United States. The most common documents which help to establish United States citizenship are birth certificates showing place of birth, baptismal certificates, naturalization certificates, and United States passports, valid or expired.

Passports and visas are waived for Canadian citizens and British subjects who reside in Canada and who are entering temporarily across the Canadian border. Such persons may be admitted as visitors for an appropriate period not to exceed six months. All other aliens seeking to enter the United States are required to be in possession of a valid passport and appropriate visa issued by an American Consul.

Aliens returning to legal residence in the United States must be in possession of their Alien Registration Receipt and Border Crossing Card (FORM I-151) or a valid re-entry permit.

## Customs Regulations

Residents of United States may take into Canada their wearing apparel and other personal effects and upon return to United States are entitled to have the same admitted free of duty. Residents of United States upon return must declare all articles acquired abroad, in their baggage, on their person or to be forwarded to them, whether by purchase, by gift, or otherwise, and whether dutiable or free of duty.

Each returning resident of the United States is entitled to an exemption from duty on articles up to a total of One Hundred Dollars (\$100.00) in value acquired outside the United States under the following conditions, if declared when the resident arrives at the United States port of entry:

1. Provided they have been outside the United States over forty-eight hours.
2. Provided they have had no previous exemption for the past thirty days.
3. Provided the articles are not intended for sale, or as an order for others, or prohibited by law.
4. Provided they are acquired as an incident of the foreign journey.
5. Foodstuffs, cigarettes, tobacco, 100 cigars, and not over one wine gallon of distilled spirits, wines or malt liquors (provided the quantity is not prohibited by State law) may be included in this exemption.
6. Each member of a family is entitled to the \$100 exemption for articles acquired abroad of the character described in the third proviso to Paragraph 1798, Tariff Act of 1930, as amended, subject to the conditions prescribed therein. Articles belonging to one passenger cannot be included in the exemption of another, except that when members of a family residing in one household travel together on their return to the United States, the exemptions to which the several members of the family are entitled may be grouped and allowed without regard to which member is the owner, provided that the grouped exemption shall not include that of any person who is not entitled to such an exemption, nor be allowed for the property of any such person.

The owner of valuable effects of foreign origin, sealskin garments, plumage, or other articles, prior to his departure from the United States, may make an application to the collector or his representative on Customs Form 4455 for the registration of such articles to facilitate their identification on return to the United States.

## INFORMATION FOR PERSONS ENTERING THE UNITED STATES FROM CANADA

## Immigration Regulations

United States citizens do not require passports when reentering the United States after a visit to Canada. It is recommended, however, that they be in possession of such personal papers or other documents as may be helpful in establishing that they are citizens of the United States. The most common documents which help to establish United States citizenship are birth certificates showing place of birth, baptismal certificates, naturalization certificates, and United States passports, valid or expired.

Passports and visas are waived for Canadian citizens and British subjects who reside in Canada and who are entering temporarily across the Canadian border. Such persons may be admitted as visitors for an appropriate period not to exceed six months. All other aliens seeking to enter the United States are required to be in possession of a valid passport and appropriate visa issued by an American Consul.

Aliens returning to legal residence in the United States must be in possession of their Alien Registration Receipt and Border Crossing Card (FORM I-151) or a valid re-entry permit.

### Customs Regulations

Residents of United States may take into Canada their wearing apparel and other personal effects and upon return to United States are entitled to have the same admitted free of duty. Residents of United States upon return must declare all articles acquired abroad, in their baggage, on their person or to be forwarded to them, whether by purchase, by gift, or otherwise, and whether dutiable or free of duty.

Each returning resident of the United States is entitled to an exemption from duty on articles up to a total of One Hundred Dollars (\$100.00) in value acquired outside the United States under the following conditions, if declared when the resident arrives at the United States port of entry:

1. Provided they have been outside the United States over forty-eight hours.
2. Provided they have had no previous exemption for the past thirty days.
3. Provided the articles are not intended for sale, or as an order for others, or prohibited by law.
4. Provided they are acquired as an incident of the foreign journey.
5. Foodstuffs, cigarettes, tobacco, 100 cigars, and not over one wine gallon of distilled spirits, wines or malt liquors (provided the quantity is not prohibited by State law) may be included in this exemption.

6. Each member of a family is entitled to the \$100 exemption for articles acquired abroad of the character described in the third proviso to Paragraph 1798, Tariff Act of 1930, as amended, subject to the conditions prescribed therein. Articles belonging to one passenger cannot be included in the exemption of another, except that when members of a family residing in one household travel together on their return to the United States, the exemption to which the several members of the family are entitled may be grouped together without regard to which member is the owner, provided that the grouped exemption shall not include the value of any person who is not entitled to such an exemption, nor be allowed for the property of any such person.

The owner of valuable effects of foreign origin, sealskin garments, plumage, or other articles, prior to his departure from the United States, may make an application to the collector or his representative on Customs Form 4455 for the registration of such articles to facilitate their identification on return to the United States.

THE LAURENTIAN, the daylight fast train over the D & H between New York and Montreal, offers the most interesting, picturesque and scenic one-day trip in America. The route of the D & H between Albany and Montreal follows the Hudson River and the Champlain Canal to Whitehall, and then follows the shore of Lake Champlain for over one hundred miles to the Canadian border. This lake of magnificent distances, superb mountain views and important historic associations, lies midway between the long ranges of the Adirondacks and the Green Mountains. It is one hundred and thirty miles in length, and from one to thirteen miles in width. Its forest walled shores and many islands with their mountain background create a constantly changing scenic picture of unsurpassed beauty.

The military history of Lake Champlain extends from its discovery by Samuel de Champlain in 1609 to the Battle of Plattsburg in 1814. The waterway from the St. Lawrence River through the Richelieu River, Lake Champlain and Lake George played an important part in early Colonial history, as it was the invasion route of the French under General Montcalm, and later of the British under General Burgoyne.

Some of the points of interest along your route between Albany and Montreal are pointed out in the following pages.

*Hudson River, Fort Edward*

THE TRAIN crosses the Hudson at the "Great Carrying Place" which was the beginning of the war-path that led from the River to Canada.

The fort — first named Fort Lyman, afterwards, Fort Edward — was one of the chain of block houses that protected the trail, and there is not a mile that has not heard the Indian war cry, and the firing of the contending armies in the French and Indian War and the Revolutionary War.

It was at Fort Edward that Jane McCrae was tomahawked and scalped by an Indian in the employ of the British. Though she was of a Loyalist family, the rage aroused by the murder caused reinforcements to pour into General Gates' army from all the Northern Colonies, and aided in the victory over the British at Saratoga.

The D & H and the present canal follow roughly the original wilderness path, and the next block house at Fort Ann — eleven miles north — exists today only as grassy mounds east of the track.

Large paper, cement and manufacturing plants in this area and on the branch line to Glens Falls are served by the D & H.

*Champlain Canal, Whitehall*

WHITEHALL—the Skenesboro of early days—and the birthplace of the Navy where Arnold built his fleet figured largely in the tide of war that rolled back and forth from Canada to the Hudson. Controlling the head waters of the lake, it changed hands repeatedly—from French—to British—to American—and was the main camp for Burgoyne's army during his disastrous campaign that ended at Saratoga.

Major Philip Skene, a Tory officer, had grandiose ideas of a great manor at the head of the lake. Legend has it that he persuaded Burgoyne to take the old trail to Fort Edward rather than the easier way up Lake George, as it would open up roads on his estates. Another legend states that his mother received an annuity "so long as she remained above ground," and that when she died, he put the body in the cellar and continued to collect the annuity.

FROM WHITEHALL north, the train crosses the entrance to Great South Bay, the source of the lake, and follows the winding waterway to Montcalm Landing—now Fort Ticonderoga—where Montcalm stepped ashore on his way to capture Fort William Henry at Lake George during the French and Indian Wars. On a bluff east of the train is Fort Ticonderoga, beautifully restored by the Pell family and containing a complete collection of war matériel. The Fort was held in turn by France—Britain—and the United States, and was originally named Fort Carillon. It was the strongest of the fortified posts on the lake.

Great paper mills constitute the principal industry in this area.

*Highway Bridge at Port Henry*

AT PORT HENRY, shipping point for Adirondack iron ore the lake widens, and on Crown Point, at the New York end of the highway bridge, stands Fort St. Frederic, one of the first fortified posts on the lake. Indications are that a block house was built there about 1730, and later a substantial fort whose stone walls still stand. The site is a State Park and the lighthouse is a memorial to Samuel de Champlain who was the first white man to see the lake in 1609. The French called it "Fort à la Chevelure" or Scalp Point, from the massacre there of the refugees from the burning of Schenectady who were fleeing to Canada.

From Port Henry to Westport, the historical interest centers on the Vermont shore. There—in creeks and bays—Macdonough built his fleet which won such a decisive victory over the Britist under Captain Downey at Cumberland Head in September 1814.

**WESTPORT** was settled about 1765, and is located on one of the most beautiful bays in the lake. It is a charming resort village and popular yachting base. The train leaves the lake there to join it again at Willsboro, and for fourteen miles goes through fertile farming country watered by the Bouquet River, on its way to join the lake at Willsboro. The high peaks of the Adirondacks are directly west, and Westport has long been the principal gateway to the mountain resorts, Elizabethtown, Keene Valley, Lake Placid and Saranac Lake.

*Through the Rocks, Willsboro*

THE TRAIN joins the lake again at Willsboro, and for thirteen miles goes through some of the most spectacular scenery in the State. Willsboro Bay cuts four miles inside. Willsboro Point, and the railroad is built into the side of the mountains that rise abruptly from the bay. The building of the road in 1875 was one of the great engineering feats of the decade. Red Rock Tunnel cuts through the mountain, and halfway down the bay is the small cove called Port Misery—attesting to the hardships of the barges that took shelter there in rough weather. Wollastonite and pulp are the principal products of this area.

Over Willsboro Point and across the lake can be seen Burlington, the largest city in Vermont; and behind and against the sky, the range of the Green Mountains with the two high peaks of Camel's Hump and Mount Mansfield most prominent. Juniper Island stands like a ship in Burlington Harbor, and to the south the four Brothers Islands—now a bird sanctuary—are plainly seen. The track makes a great curve around Corlear Bay where Arendt van Corlear, the founder of Schenectady, was drowned; and in the bay sits beautiful Schuyler Island where Arnold collected and repaired his sinking ships after the battle of Valcour.

*Port Kent Ferry*

AT THE LITTLE VILLAGE of Port Kent, ferry service crosses the lake to Burlington, and off the end of Providence Island—on the Vermont shore—is the island called “Carleton’s Prize.” There is a legend that the British mistook it for a hostile ship and bombarded it heavily before they saw their mistake. Garden Island, off the south end of Valcour, was also often mistaken for the enemy, and there is a story that the British, seeing it in the fog, halted their pursuit of Arnold, thinking that he had been reinforced.

A few miles north of Port Kent, the track crosses the two branches of the Au Sable River and then Valcour Island appears quite near the shore. The great fight between the British and Americans in 1776 was off this island, and Arnold’s anchorage, about where the lighthouse can be seen, has yielded many relics of the battle. For many years, the wreck of the “Philadelphia” could be seen from a small boat in the clear water. In 1935, it was raised, and is now permanently exhibited on Highway 22 between Essex and Willsboro. Cannon balls are frequently found today in the shallow water.

**J**UST NORTH OF VALCOUR lies Crab Island—a government cemetery for British and Americans killed in the Battle of Lake Champlain—and then the train approaches Plattsburg—the largest city on the west side of the lake and site of a great base of the Strategic Air Command of the U. Plattsburg is a busy city with a number of active industries. Iron ore from Lyon Mountain, 13 miles to the west, is brought to the main line for shipping to the steel mills.

Commodore Macdonough and General Macomb defeated the British on lake and land on September 18, 1814—a decisive victory which, more than any other action, decided the War of 1812-14. A monument to Macdonough can be seen to the west of the train in the square facing the Lake.

Montreal*

FROM ROUSES POINT to Montreal, the train proceeds through the Province of Quebec and reaches the Canadian Pacific Railway at Delson Junction, 28 miles north of the border.

The flat country which is traversed between Rouses Point and Delson Junction is cut up into small farms and it will be noted that there are many divisions as outlined by fences. These farms are owned by French Canadians and the fences denote parcels of land that have been set aside for the children of the owner.

The train crosses the St. Lawrence River on one of the longest railroad bridges in the Dominion of Canada and just west of the south end of this bridge is the Indian Village of Caughnawaga. The Indians who own this village, which is upon a reservation granted them by the Canadian Government, are skilled structural steel workers.

The Windsor Street Station, which is pictured above, in addition to being the train terminal of the Canadian Pacific Railway, houses the general offices of that railway system and is one of the finest structures of its kind on the continent.

Montreal is the second largest French-speaking city in the world. It is gay, historic, beautiful and dynamic, worthy of being the metropolis of Canada.

**THE LAURENTIAN**, the daylight fast train over the D & H between New York and Montreal, offers the most interesting, picturesque and scenic one-day trip in America. The route of the D & H between Albany and Montreal follows the Hudson River and the Champlain Canal to Whitehall, and then follows the shore of Lake Champlain for over one hundred miles to the Canadian border. This lake of magnificent distances, superb mountain views and important historic associations, lies midway between the long ranges of the Adirondacks and the Green Mountains. It is one hundred and thirty miles in length, and from one to thirteen miles in width. Its forest walled shores and many islands with their mountain background create a constantly changing scenic picture of unsurpassed beauty.

The military history of Lake Champlain extends from its discovery by Samuel de Champlain in 1609 to the Battle of Plattsburg in 1814. The waterway from the St. Lawrence River through the Richelieu River, Lake Champlain and Lake George played an important part in early Colonial history, as it was the invasion route of the French under General Montcalm, and later of the British under General Burgoyne.

Some of the points of interest along your route between Albany and Montreal are pointed out in the following pages.

*Old print of former Saratoga Terminal*

**LEAVING** Albany, the Capital City of the Empire State and an inland seaport, The Laurentian begins its journey northward. It passes at Watervliet the U. S. Army Arsenal and at Cohoes a fine view is had of the Mohawk River as it flows into the Hudson.

Mechanicville, with its paper mills, is also the junction where the D & H interchanges with the Boston & Maine R. R. for freight operations to and from New England.

Saratoga Springs is widely known as a health resort. Its variety of mineral waters are world famous. The State of New York has developed a magnificent reservation with baths, drinking halls, bottling plant and a fine hotel with every recreational facility.

During the month of August horse racing brings visitors from far and near to one of the oldest and one of the most beautiful tracks in America. Night Harness Racing is also conducted on another track, the Saratoga Raceway.
